1-800-Recycling.com's "My Recycle List" is Now #1 Recycling App in Android Market

October 12, 2010

1-800-Recycling.com, an interactive nationwide company dedicated to simplifying and enhancing the consumer [recycling](#) experience, has announced that its App, "My Recycle List," has become the #1 top rated recycling App at the [Android](#) Market.

"My Recycle List" is a user-friendly App designed to help anyone anywhere participate in the recycling of items they would otherwise throw away. The first fully comprehensive "all items, all zip codes" recycling App, 1-800-Recycling's free App, also the #1 recycling App for iPhones and iPads at the [Apple](#) App store, enables the user to quickly find recycling locations nearby that accept items the user selects from a list. The App enables the user to easily organize locations by adding them to a personalized list – like an intuitive grocery list for recyclers.

Like 1-800-Recycling's [website](#) and phone system, the "My Recycle List App" is designed to take the burden out of recycling by making it easy to accomplish recycling goals in the least amount of trips.

"We are extremely proud of the tremendous success of our 'My Recycling List' App," said John Shegerian, Chairman and CEO of Electronic Recyclers International (ERI), the nation's leading recycler of electronics and e-waste, and parent company of 1-800-Recycling.com. "That we've hit the top spot already in both the Android Market and at the Apple App store shows just how desperately people want and need a simplification of the recycling process. Our App, like our 1-800-Recycling.com site and 1-800-Recycling interactive phone system, enables anyone anywhere to be an active part of the recycling process – whether at home or at work."

Shegerian noted that "My Recycle List" has received thousands of downloads each in both the Android Market and the Apple App Store.

1-800-Recycling.com provides users with nationwide outreach to help users find recycling locations nearest to them (every zip code in the country is covered) for whatever it is they wish to recycle.

The App, the 1-800-Recycling.com website and the 1-800-Recycling phone service all direct users to responsible recyclers of electronics, tires, oil, paint, glass, plastic, wood, mattresses, carpet, junk – basically everything that can be recycled.
